

Team Name: Jeffrey Epstein Didn't Compile Himeslf									
Group Members: Logan Whitfield, Thomas Kneppshield, Gene Pressinger									
These test cases will probe what the application will accept and will not accept as input.									
The first test will be for the client account functions.									
Test #	Test Case					Type		createAccount	
	Input					Expected Output		Actual Output	
1	createAccount(Peggy, passwd, PSues@gmail.com, 2345670000, Pegford, Cho, 09-05-1990, FEMALE, 27407)					User creation success		User creation successful	
2	createAccount(Wyatt, passwd, 2345670020, Wyatt, Williams, 01-03-1996, MALE, 27407)					User creation failure		User creation failure	
3	createAccount(Billy, passwd, billy@gmail.com, 2345670000, William, Williams, 01-03-1996, MALE, 27407)					User creation failure		User creation failure	
4	createAccount(passwd, billy@gmail.com, 2345670000, William, Williams, 01-03-1996, MALE)					User creation failure		User creation failure	
5	createAccount(Billy, passwd, billy@gmail.com, 2345670000, William, Williams, 01-03-1996, MALE, 27407)					User creation success		User creation successful	
Test #	Test Case					Type		credentialsAreValid	
	Input					Expected Output		Actual Output	
1	credentialsAreValid(Peggy, password)					FALSE		FALSE	
2	credentialsAreValid(Wyatt, password)					FALSE		FALSE	
3	credentialsAreValid(Billy, passwd)					FALSE		FALSE	
4	credentialsAreValid(null, passwd)					FALSE		FALSE	
5	credentialsAreValid(Billy, passwd)					TRUE		TRUE	
Test #	Test Case					Type		getSavedFlights	
	Input					Expected Output		Actual Output	
1	getSavedFlights(Peggy)					Returns saved flights		Returns saved flights	
2	getSavedFlights(Wyatt)					Returns no flights		Returns no flights	
3	getSavedFlights(Bill)					Returns no flights		Returns no flights	
4	getSavedFlights(billy)					Returns no flights		Returns no flights	
5	getSavedFlights(Billy)					Returns saved flights		Returns saved flights
